

ROUTE PLANNING SOFTWARE

Your Success
Depends on :

Customer Service:

A satisfied client is a loyal client

- How many clients have you gained because you were there at the right time?
- How many clients have you lost because you could not get there when needed?
- What insurance do you have for keeping them?

«When a driver is absent, his substitute can easily follow the route on-time, without compromising our service. With TourSolver our customer service has greatly improved.» Eric D., Delivery Manager, SOLEMCO

Resource Management :

Are you spending too much and not getting what you deserve?

What if you could...

- Reduce your vehicle costs by 15-30%?
- Handle your existing volume with fewer vehicles?
- Calculate costs before hitting the road, or acquiring vehicles?

« TourSolver helped us reduce operational costs by approximately 20%», Mark P., Service Manager, SLUSH PUPPIE UK

Productivity :

What if your employees and resources had more time?

- Would you service a few more clients per day?
- What revenue generating tasks could your employees perform?

“Learning and using TourSolver was easy and quick. Now our employees can focus on more productive activities” Jean-Pierre P., AIR LIQUIDE MEDICINAL

“We increased our sales 10% without any additional transport costs” Rudy B., General Manager, B.B. Industrial Laundry
